### DETAILED ACTION

1. This Office action is in response to the decision of the appeal conference from 05/18/07 to re-open the prosecution of the case.

### EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Joseph J. Corso on 05/24/07.

The application has been amended as follows:

**In Claim 35:** In the beginning of the claim before "wetness indicator" after "A" insert "personal wear absorbent article in combination with a", and after "said first ink layer being disposed" insert -- at least in part --.

**In Claims 43, 46 and 51-60:** replace [An indicator] with -- The combination --.

**In Claim 51** after "is impermeable to said fluid," insert -- is a discontinuous layer, --.

**Claim 60.** (New) The combination as set forth in claim 51, wherein said discontinuous first ink is in the form of separated dots.

Claims 35, 43, 46 and 51-60 are allowed. The new numbering of claims is 1 through 13.

The following is an examiner's statement of reasons for allowance: the examiner agrees with the Applicant's arguments that the closest prior art cited by the examiner does not teach or fairly suggest personal wear absorbent article in combination with a wetness indicator comprising two ink layers, with the second layer comprising pH indicator and one of two indicators comprising fluid regulating additives.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
